HAT CARE INSTRUCTIONS

HOW TO CLEAN YOUR PALM/STRAW HAT

To clean your palm hat don't be scared to use a little water! For loose dirt build up, use a soft brush and dust off in the direction of the palm weave. If dust or dirt build up is stubborn or embedded, use ¼ cup warm water & ¼ cup hydrogen peroxide solution in a spray bottle. With soft cloth wipe down, or use soft brush to gently scrub spot stains. Follow with plain water and a cloth to wipe away remaining solution.

HOW TO CLEAN YOUR SUEDE LEATHER HAT

Using a very high grain sandpaper, you can gently sand away dirt and debris as long as you are careful of the threads keeping the hat together. A suede bar may also be used, to remove oils and blemishes without the use of water.

HOW TO CLEAN YOUR FELT HAT

To prolong your hat's life, regular brushing is important. To remove loose dirt, simply use a quality hat brush and swipe it away. Avoid using a brush made of nylon as it may be too abrasive and damage the hat. To remove dust from the hat, simply use a damp (not wet) cloth. To remove fuzz and hair, use a piece of sticky tape to gently wipe the hat. For more stubborn smudges and stains, specially formulated hat cleaners are available.

HOW TO CLEAN/ MAINTAIN SWEAT BANDS

If your hat has a removable sweat liner that uses Velcro to adhere to the hat. To avoid sweat stains from appearing on your hat, when the liner becomes soaked, remove it and hand wash it with a mild detergent, then leave it out to air dry.

HOW TO CARE FOR YOUR PALM/STRAW HAT

Your palm hat comes individually shaped. If your hat loses its original shape please reach out to SH&Co. for instructions on how to re-shape. If your hat brim gets just slightly bent out of shape that can be easily fixed by using a spray bottle with plain warm water, lightly spraying bent area and pinching back to original shape.

HOW TO STORE YOUR HATS

It is important you store your hat elevated rather than lying on the brim for any great length of time. This can be done on a hat cone, can of coffee, or roll of paper towels. Or you can simply hang it up on the wall.
